

# VC100-45 Vinyl Clamp Drainage System

## Product Description

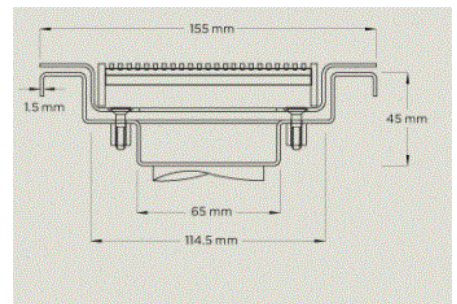

The VC100-45 vinyl clamp allows the use of a linear drain in a vinyl floor environment. It is particularly well adapted for drainage needs in hospitals, commercial kitchens or schools.

It is manufactured from 316 marine grade steel and features a wedge wire architectural style grate and channel in which a screw mechanically clamps the vinyl beneath.

## Applications

- Bathroom
- Shower
- Special needs
- Threshold
- Wet Area Drainage
