

65AATDi

Threshold with Sub-Sill

The iconic Wave Grate, now available for level entry threshold drainage in a new slim 65 x 25mm profile

For sliding and hinged doors with sill and sub-sill. Featuring a low carbon anodized aluminium grate with concealed 316 stainless steel channel section connecting sill and sub-sill for door tracks and thresholds. Allows door sills to be drained while having internal and external floor surfaces with no step down. Please be aware that depending on the installation environment, for a pool installation or close to a surf beach, you may need to have your stainless steel channel electropolished.
